

Croxx Inhibitors and Enhancers

PN-Booster

“Ready-to-apply” solution for solid / liquid and organic fertilizers to ensure P and N availability

Combination of P-Enhancer (Croxx P-Booster) and Nitrification Inhibitor DMPP

For all common phosphate fertilizers with ammonium nitrogen such as: (DAP, MAP, 20-20, 13-40-13 etc.) by evenly spraying or injecting.

Standard Concentrations:

27% P-Enhancer (Organic Complex) and 10% DMPP
Various colors for branding available.

Easy to use in a fertilizer mixing system (batch mixer or continuous mixer) or in a screw conveyor with dosing device.

Benefits

- ✓ Increase Phosphate availability
- ✓ Higher efficiency of all Phosphate fertilizers
- ✓ Less N losses through leaching (NO_3) and volatilization (N_2O)
- ✓ Safe handling

Packing: 20l / 200l / 1000l
