

CroxX foliar

Si15

High Silicon formula with Potassium and Algae extract
(*Ascorphillum nodosum*).

Enhances crop stability and resistance against biotic and abiotic stress.

For foliar application

Content (% w/w): 15.0 SiO₃ / 10.0 K₂O / 10.0 Algae extract

Density (kg/l): 1.22 / **pH:** > 11

Benefits

- ✓ Enriched with biostimulant for vitalization
- ✓ Improves plant vigor by high concentration of readily available Silicon
- ✓ Promotes plant health and resistance against biotic and abiotic stress

Packing: 1 l / 5 l / 20 l / 1000 l
