

**CroxX**

## Phos-N protect

“Ready-to-apply” solution for solid / liquid and organic fertilizers to ensure P and N availability.

Combination of P-Enhancer (CroxX P Booster) and Nitrification Inhibitor DMPP.

For all common phosphate fertilizers with ammonium nitrogen such as: (DAP, MAP, 20 20, 13-40-13 etc.) by evenly spraying or injecting.

Easy to use in a fertilizer mixing system (batch mixer or continuous mixer) or in a screw conveyor with dosing device.

### **Content (% w/w)**

27.0 P-Booster

5.0 DMP

**Bulk density (kg/l): 1.30 / pH: 4.7**

**Phos-N protect**

## Benefits

- ✓ Increase Phosphate availability
- ✓ Higher efficiency of all Phosphate fertilizers
- ✓ Less N losses through leaching ( $\text{NO}_3^-$ ) and volatilization ( $\text{N}_2\text{O}$ )
- ✓ Enhanced Uptake of Nutrients especially Trace Elements
- ✓ Safe handling

**Packaging: 20l / 200l/ 1000l**
