

Croxx stim

Activator 17

High purity liquid humic and fulvic acids for fertigation and foliar application. Derived from Leonardite. Stimulates root growth and promotes uptake of nutrients due to natural chelation and complexation of nutrients.

For Foliar Application and Fertigation.

Content (% w/w):

17 Humic Extract / 12 Humic Acids / 5.0 Fulvic Acids / 3.5 K₂O

Density (kg/l): 1.12 / pH: 12.5-13.0

Benefits

- ✓ Improves soil quality and fertility
- ✓ Enhances fertilizer uptake particularly of micronutrients
- ✓ Increases resistance vs. biotic and abiotic stress (drought, cold, heat)

Packing: 1l / 5l / 20l / 1000l
