

CroxX stim

Kelp Maxima

Natural plant growth promoting product, derived from *Ecklonia maxima*.
The innovative extraction process ensures high solubility of the organic fraction with superior bioactive quantities.

Algal substances promote root growth and thus nutrient mobilization and acquisition.

Content (% w/w)

33.0 Seaweed extract (*Ecklonia maxima*)

1.15 organic Carbon (C_{org})

0.5 Alginic Acid / 0.02 Mannitol

Bulk density (kg/l): 1.04 / pH: 4.8 - 5.0

Kelp Maxima

Benefits

- ✓ Natural Auxins stimulate shoot and root growth
- ✓ Contains stress-protective brassinosteroids
- ✓ Boosts resilience by activating natural defense mechanisms

Packaging: 1l / 5l / 20l / 1000l
